## Contribute

To UNOG

To multilateralism

The United Nations Office at Geneva (UNOG) is a center of international diplomacy and multilateral dialogue. Donations support the modernization of its facilities and the continuation of its vital work. By contributing, donors strengthen UNOG's capacity to promote cooperation and effective multilateralism now and in the future.

# FOOD WASTE COMPOSTER

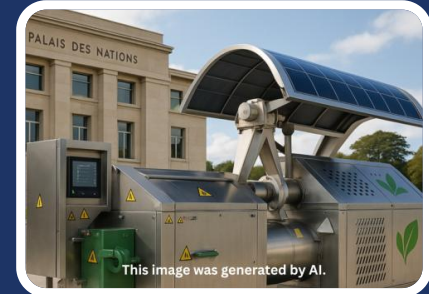

## ↔ SUSTAINABILITY & ENVIRONMENT

**Background** – Annually, around 200000 meals are served at the cafeteria of the Palais des Nations, producing around 18 tonnes of food waste. Instead of transporting food waste to an industrial treatment facility, it can be composted on-site and reused as natural fertilizer. Ideally, the composter would be an enclosed, easy-to-use machine.

**Scope** – The goal of the project is to install a composting system at the Palais des Nations, attaining a potential cost avoidance of CHF 12000/year through reduced costs for waste removal. Depending on the model, it could handle food, organic garden waste and compostable packaging.

### Impact

- Potential improvement of the composting rate from 21% to at least 58%.
- Nutrient-rich soil with the potential to increase the seed success spreading chances by 90%.

### Sustainability & Environment

Estimated Cost

CHF 150000 - CHF 200000

Location

Waste Disposal Area - Building H
